GAHANNA IMPLEMENTS BICYCLE MASTER PLAN

The City of Gahanna made progress towards implementing the Bicycle Master Plan during 2006-2009. This is a major step forward in fulfilling the goals to increase connectivity between our neighborhoods, which 81% of residents supported in the 2006 Parks Master Plan Survey. The Bikeway Plan envisions a network of on and off-street bicycle facilities that connect all parts of Gahanna, providing residents and visitors with convenient access to workplaces, schools, parks and commercial areas throughout the city. Its goal is to enhance the walkability and bikeability of Gahanna, providing access to our beautiful natural areas, providing healthy alternative transportation modes for our residents and reducing the amount of traffic on our roads. As of 2009, Gahanna has 9 miles of multi-use trails. Plans for 2010 will install one new mile of multi-use trails. Future plans include 3.6 miles of bike lanes and sharrows, 26 miles of signed shared routes and additional multi-use trails. We are also educating and encouraging children about safe, active transportation through our Safe Routes to Schools and Walk to School Day activities in partnership with the Gahanna Jefferson School District.

Through the leadership and vision of our volunteer Bicycle Advisory Committee members and City staff, the Bikeway Master Plan has been revised, and routes and facilities have been prioritized to provide connectivity for a majority of our residents.

BIG WALNUT TRAIL STATUS

A new section of the Big Walnut Trail was opened in October, 2009 connecting Gahanna Pool to Price Rd. A new bridge crossing Big Walnut Creek to connect the southern section of trail to Rocky Fork Dr through Galloway Preserve is planned to be completed in summer, 2010.

FINDING YOUR WAY

The Bicycle Master Plan will develop routes utilizing existing multi-use trails, low speed, low traffic residential streets and new bicycle facilities (bike lanes and sharrows) to connect neighborhoods to schools, parks and commercial areas. The wayfinding signage will utilize federal guidelines defined in the Manual for Uniform Traffic Control Devices (MUTCD) for on-street route signs and Central Ohio Greenways guidelines for the Big Walnut Creek trail signs.

BIKEWAYS

"Bikeway" is a collective term that may include any of the following techniques for accommodating bicycles in the transportation system.

MULTI-USE PATH (RECREATIONAL TRAIL)

A multi-use path is provided within its own right of way separate from the highway system. In addition to unused rail corridors, multi-use paths are often provided along rivers, within parks, and connecting cul-de-sacs. By definition, multi-use paths are intended to be used by a variety of users including cyclists, walkers, runners, skaters, and wheelchair users. The minimum recommended width for multi-use paths is 10 ft plus 2 ft clear space on either side.

MULTI-USE PATH (SIDEPATH)

A sidepath is a multi-use path constructed to the side of the roadway within the street right of way. It is usually provided on one side of the road and intended for two-way bike and pedestrian traffic. A 5 ft pedestrian sidewalk is usually provided on the opposite side of the road. The minimum recommended width for sidepaths is 10 ft plus 5 ft separation from the roadway edge. While favored for their separation from motorized traffic, they do have drawbacks because they move the cyclist out of the sight lines of motorists turning into and from driveways and side streets and cause cyclists to ride opposing traffic in the adjacent travel lane. Motorists may harass cyclists who legitimately choose to ride in the street. Sidepaths work best where there are few street or driveway crossings.

BIKE LANE

Striped bike lanes are established with appropriate pavement markings and signing along higher volume streets particularly suitable for bicycle travel because of demand or destinations served. Bike lanes delineate the right of way recommended for bicyclists and motorists and encourage more predictable movements by each. On an existing road, the additional space for bike lanes may come from restriping the existing lanes or removing parking. Additional measures needed to ensure the effectiveness of the bike lanes include replacing any parallel storm water inlets that may trap bike wheels and to keep the lanes swept clear of glass and debris. The minimum recommended width for bike lanes is 5 ft.

SHARED LANE (SHARROW)

A new treatment is the Shared Lane Marking (sharrow), a bicycle symbol below two arrows. Its purpose is for use where a travel lane width is insufficient to stripe bike lanes. The symbol indicates the lateral position within the lane to be taken by the cyclist which will likely be within the space also occupied by motor vehicles. Research has found that it encourages cyclists to ride outside the "door zone" of parked cars and also increases the distance between passing motorists and cyclists. It also discourages cycling on the sidewalks and the directional arrows reduce wrong way riding in the street.

SIGNED SHARED ROADWAY

Streets may be signed with bike route signs to indicate to cyclists that there are particular advantages to these routes compared to alternative routes through high demand corridors and to provide continuity between gaps in other facilities such as bike lanes and trails. Such a bike route might identify a series of low-volume local streets to follow as an alternative to cycling on a parallel arterial street. Bike route signing also serves to advise motorists that bicycles are likely to be present.

PLANNING COMMISSION

FINDING OF FACT

City of Gahanna
ATTN: Tony Collins
200 S. Hamilton Road
Gahanna, OH 43230

Gahanna Planning Commission met on Wednesday, April 14, 2010 with members Andrews, Rosan, Price, Penn, Shepherd, Thom and Westwood present, to consider along with other business:

S-0001-2010 To consider a recommendation to Council to update the previously approved Gahanna Bikeway Master Plan; Gahanna Parks and Rec Department, applicant.

Study: **RECOMMENDED TO COUNCIL FOR APPROVAL**

This Finding of Fact is certified, this 16th day of April, 2010.

Stacey L. Bashore
Deputy Clerk of Council

CITY OF GAHANNA

DEPARTMENT OF PARKS & RECREATION

TO: COUNCIL

FROM: TONY COLLINS, DIRECTOR OF PARKS & RECREATION

SUBJECT: 2009BIKEWAY MASTER PLAN

DATE: MAY 7, 2010

CC: MAYOR

RECOMMENDATION

REGULAR MEETING OF PARKS & RECREATION BOARD: November 4, 2009

MOTION by Tremante, seconded by Miller, to recommend to Council the 2009 Bikeway Master Plan. Voting yes: Naegele, Tremante, Franzmann, McKenna, Messinger, and Miller. Motion carried.

Chair requested that Director forward this recommendation to Council.

Tony Collins
Director, Department of Parks & Recreation

2010 Bikeway Plan

Gahanna City Council

Presentation

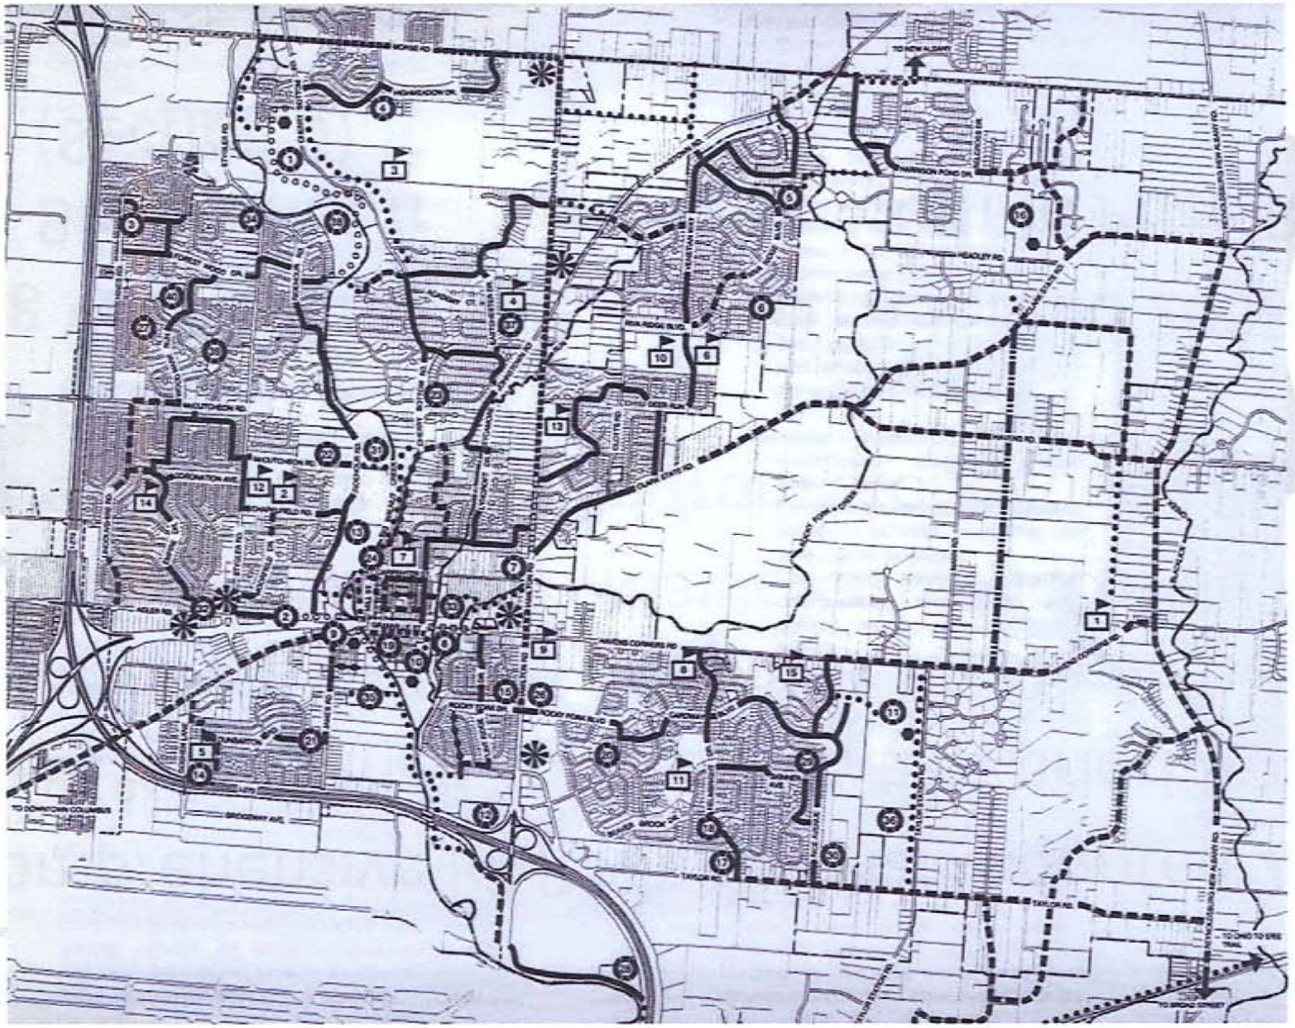
May 10, 2010

CITY OF GAHANNA

Overview

- History
- Definitions - Types of bikeway facilities
- Gahanna Bikeway Proposed Plan
- Public Information
- Connectivity to Regional Plans

Gahanna Bikeway Master Plan



05/10/2010

CITY OF GAHANNA

Progress since 1999

- Comprehensive P&R Master Plan Adopted 2006
  - 81% identified connectivity as a priority
- Internal park shared use paths & connectors (Academy Park, Bryn Mawr Park, McCorkle Park)
- Sidepath : Hamilton Rd from Stone Ridge Plaza to Johnstown Rd
- Big Walnut Trail Concept Plan Adopted 2008
  - Big Walnut trail extended south to Price Rd (Section 6)

Progress since 1999

- Sidepaths
  - Johnstown Rd from Hamilton Rd to Commission Dr
  - Johnstown & Morse Rd from Pamela Dr to Shull Rd and under Morse Rd to Rosewell Lane (New Albany)
  - Johnstown Rd from Beecher to YMCA (in progress)
  - Tech Center Dr (in progress)
- 2008 Community Survey
  - 83% of citizens see a need for additional walking and bike trails
- Internal park shared use paths & connectors (Hannah Park, Jefferson Elementary School, Rice Avenue/Foxwood Park)

Definition of Bicycle Facilities

- Multi Use Path – Recreational Trail
- Multi Use Path – Sidepath
- Bike Lane
- Shared Lanes - Sharrows
- Signed Shared Roadway

Recreational Trail - Multi Use Path

- Benefits
  - Separated from motor vehicle traffic
  - Provides scenic views of natural areas
  - Utilize bridge underpasses to avoid road crossing
  - Usable by beginner cyclists/children
  - Usable by pedestrians and others (skaters, skateboards, scooters)
- Drawbacks
  - Limitations to available right of way inhibit complete connectivity
  - Cyclists and pedestrians must share paths
- Improvements
  - Trail rules posted at trailheads (stay right, yield to pedestrians)

Big Walnut Recreational Trail

CITY OF GAHANNA

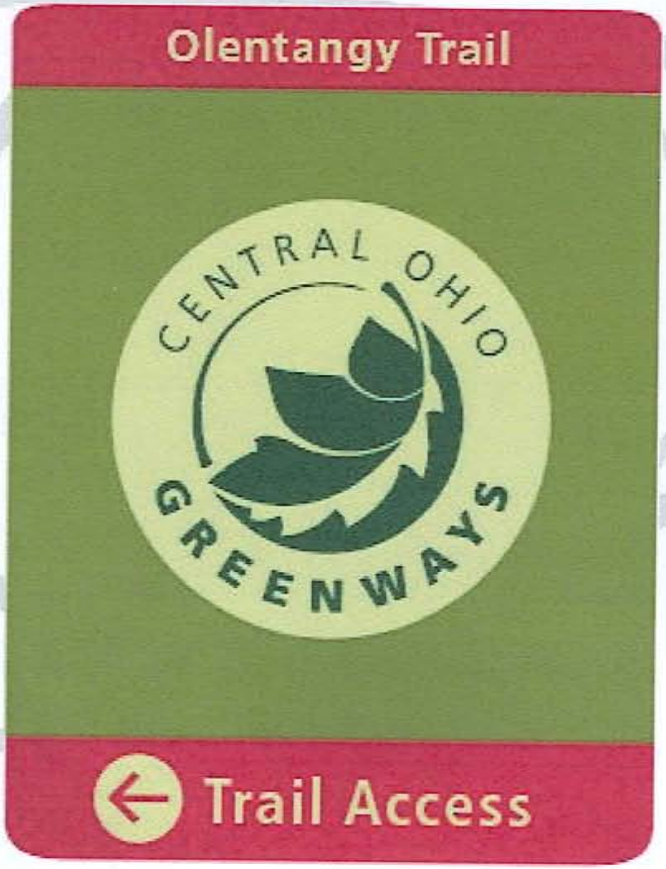
Big Walnut Trail Directional Signage

05/10/2010

CITY OF GAHANNA

Central Ohio Greenway Trail Identification Signage

Marks trail access from road



Big Walnut Trail Logo

Sidepath – Multi Use Path

- Benefits
  - Separated from motor vehicle traffic
  - Improvement over sidewalk due to width and improved pavement
  - Usable by beginner cyclists/children
- Drawbacks
  - Frequent driveway/intersection conflicts
  - Cyclists and pedestrians must share paths
  - Encourages unsafe wrong way riding
    - Cyclists may ride on wrong side of street when pathway ends
    - Motorists turning right may not look right

Sidepath – Multi Use Path

- Improvements
  - Sidepaths on side with fewer driveways/intersections
  - Position at least 5' from roadway
  - Stop & Warning signs on sidepath for cyclists
  - Motorist education and bicycle warning signage
  - Educate cyclists to yield at intersections, yield to pedestrians, limit speed and increase visibility with bright clothing and lights

Hamilton Road Sidepath

05/10/2010

CITY OF GAHANNA

Bike Lanes

- Benefits
  - Extra pavement (5') for cyclists' use
  - Encourage riding on right
  - Usable by intermediate level cyclists
- Drawbacks
  - Intersection conflicts (less frequent than on sidepaths)
  - Door zone issues for bike lanes adjacent to on-street parking
  - Less appropriate for beginner cyclists/children
- Improvements
  - Lanes positioned to avoid door zone and right turn-only lanes
  - Lane stripes dashed where motorists should merge
  - Motorist education and lane signage
  - Cyclist education to avoid passing on right, avoid turning left from bike lane, increase visibility

Morse Rd Bike Lane

CITY OF GAHANNA

Shared Lanes (Sharrows)

- Benefits
  - Alternative to bike lanes when road width limited
  - Provide guidance to cyclists on proper road position
    - Discourages cyclists "hugging the curb"
    - Avoids door zone issues where there is on-street parking
    - Increases visibility of cyclists to motorists
  - Usable by intermediate level cyclists
- Drawbacks
  - Intersection conflicts
  - Less appropriate for beginner cyclists/children
- Improvements
  - Sharrows positioned to avoid door zone and right turn-only lanes
  - Motorist education to share the road
  - Cyclists education to avoid passing on right, avoid turning left from sharrow, increase visibility

Britton Parkway Sharrows (Hilliard)

05/10/2010

CITY OF GAHANNA

Sharrows Right Turn-Only Lane

Signed Shared Roadway

- Benefits
  - Connects neighborhoods to parks, schools, businesses
  - Recommended route using subdivision streets
  - Signage improves wayfinding for cyclists
    - Turns are marked with arrows
    - Intersections (of two routes) are marked with destinations
  - Signage warns motorists of cyclists' presence
- Drawbacks
  - Some sections with no facilities are for experienced cyclists only
- Improvements
  - Bikeway map will indicate bicycle suitability of roads on bike routes (no bike facility, bike lane, multi-use path)

Signed Shared Roadway Signage

Route begin/end

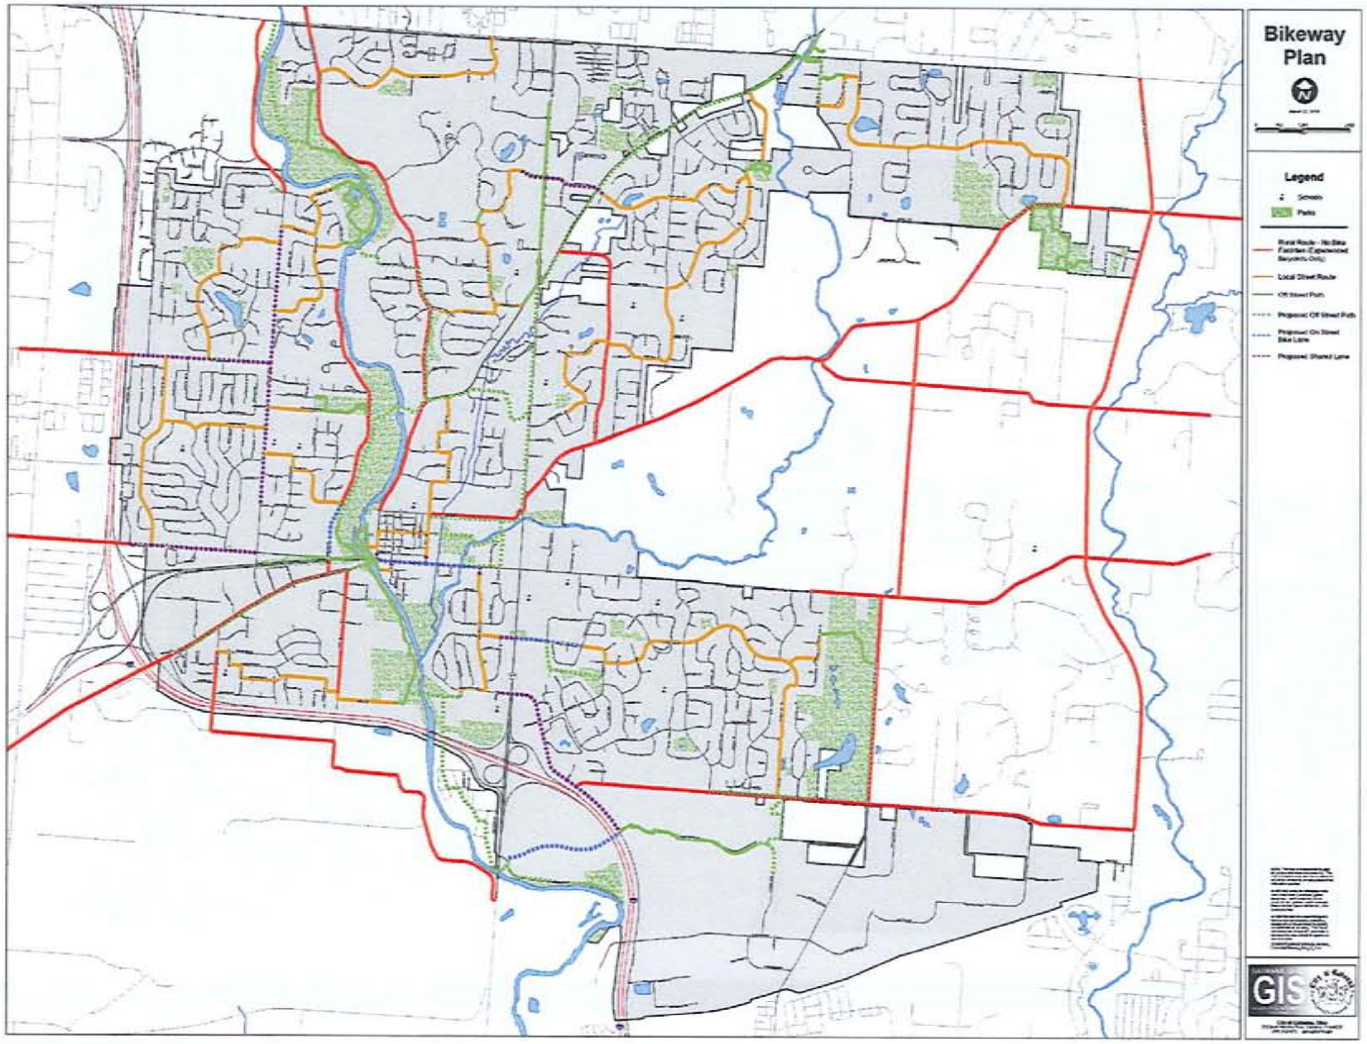
Direction arrows

Destination arrows

Shull/Walnut Route Signage

CITY OF GAHANNA

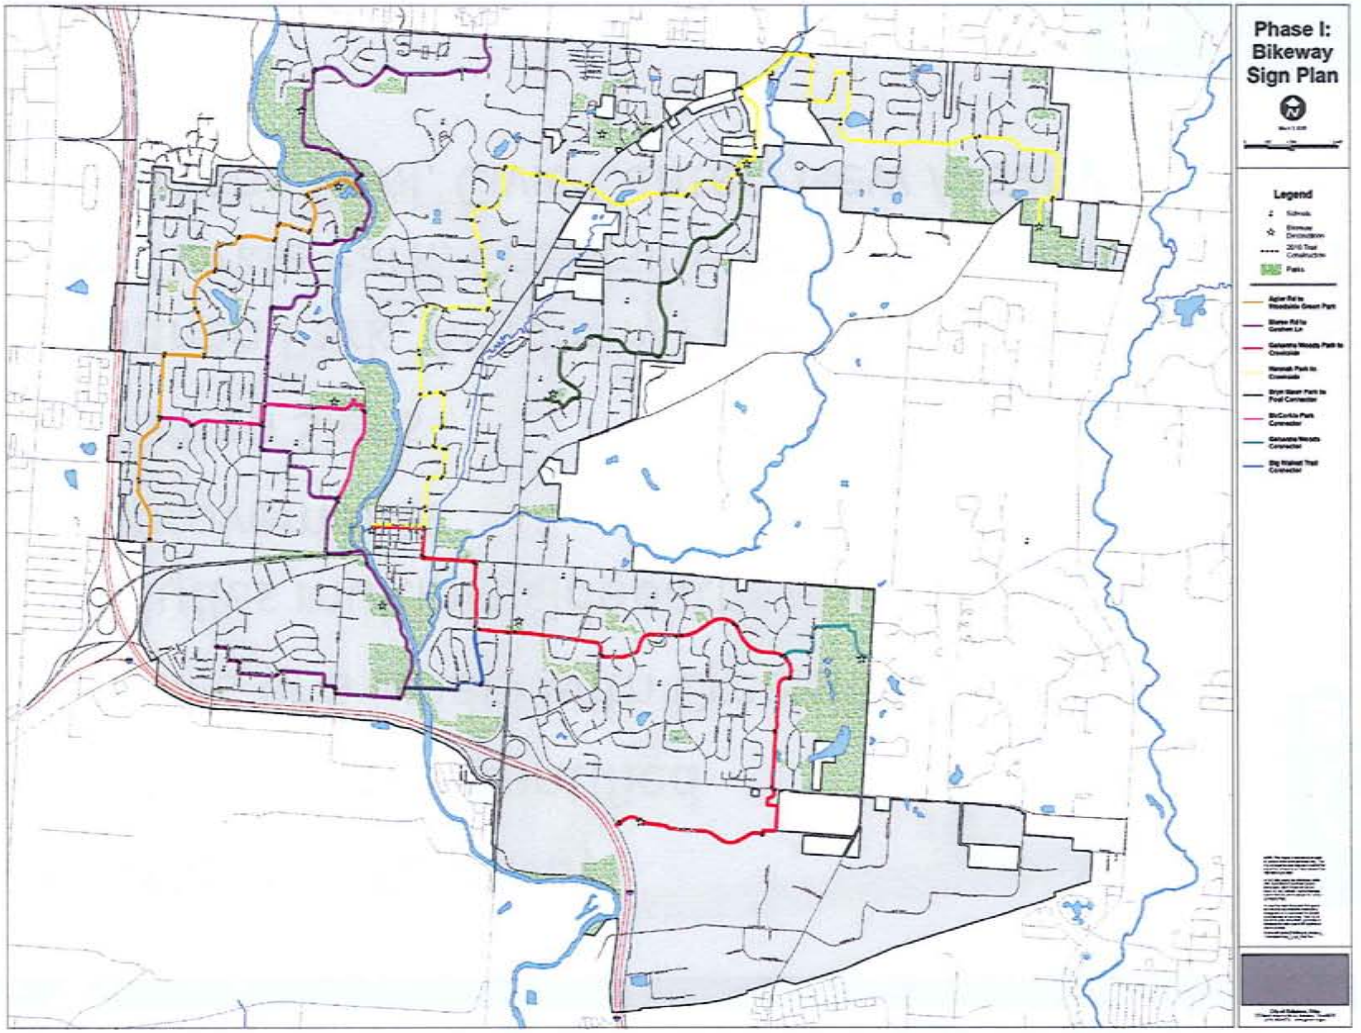
Gahanna Bikeway Plan Map



05/10/2010

CITY OF GAHANNA

Signed Shared Roadway Map



05/10/2010

CITY OF GAHANNA

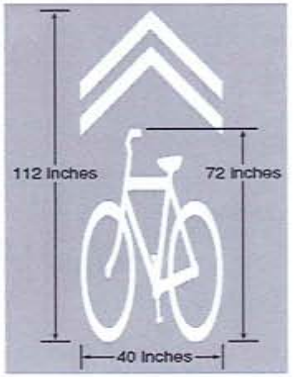
Bikeway Plan Highlights

- Signed Shared Roadway
  - Priority routes identified
  - spokes of a wheel with Creekside as the hub
  - Includes multiple sidepaths and connector improvements

- Destination Signs
  - Hannah Park, Academy Park, Woodside Green Park, McCorkle Park, Creekside Park, Gahanna Woods Park, Gahanna Pool, Civic Center, New Albany

Bikeway Plan Highlights

- Bike Lanes
  - Granville St from Flint Ridge Dr to Mill St
  - Rocky Fork Blvd from Hamilton Rd to Landover Rd (SRTS funding approved)
- Sharrows
  - Stygler Rd from Rimbey Ave to Dunchurch Rd
  - McCutcheon Rd from Lincolnshire Rd to Stygler Rd
  - Agler Rd from Lincolnshire Rd to Stygler Rd
  - Beecher Rd from Johnstown Rd to Reece Ridge Dr



Bikeway Plan Highlights

- Big Walnut Trail
  - New bridge and trail from Price Rd to Cliffview Dr (Section 7) - summer, 2010
  - Grant application for trail from Morse Rd to Academy Park (Sections 1&2) submitted to Recreational/Clean Ohio Trails Programs - February, 2010

Bikeway Financial Considerations

- Route Signage
- Trail Signage
- Street Markings
- Path Improvements

Bikeway Resource Considerations

- Road Projects
- Safe Routes To School
- Trail Grants
- General Fund

Public Information

- Campaign to educate community on route locations
- Print piece for pickup or download
- Website map access and information
- Connectivity to business community

Public Information - Website plans

- Maps of Gahanna bikeways
- Education for children, adults and motorists, including videos and brochures
