

## **CLARIFICATION #1**

### **MUNICIPAL LANDSCAPE MAINTENANCE**

Bid Item 5 (Hamilton Road Central) will include turf areas along each side of the roadway with little to no trees or mulch beds. The **proposed** plantings within the landscaped medians and two roundabout islands are geared towards low maintenance plantings that are drought tolerant. The goal is to create pollinator oasis islands for bees and butterflies. Diagrams depicting the proposed plantings within each landscaped median and roundabout island are included with this clarification.

Please attach with the sealed proposal due on **November 18, 2016 @ 11:00 am.**

**CLARIFICATION #1** is hereby acknowledged:
